SUBMISSION OF MISSING REQUIREMENTS OF APPLICATIONAssistant Commissioner of Patents
Washington, D.C. 20231

S I R:

In response to the Notice to File Missing Requirements dated March 27, 2002, the undersigned submits an executed Oath and Declaration as executed by the inventors on January 22, 2002.

With respect to the statement in the Notification of Missing Requirements requiring a translation into English, a certified English translation of the application was submitted at the time of filing the application. Attached as A is a copy of the return receipt postcard establishing receipt of this submission. Attached as B is a copy of the transmittal identified as item 1 on the postcard. The transmittal indicates at 6 that an English language translation was submitted. Further, the statement in the Notice is contradicted by the statement that the translation is defective. The contradiction also establishes receipt of the translation as it is impossible to comment on the translation unless it was received!

Regardless, attached hereto is another copy of the certified English translation of the international application.

With respect to the statement that the translation is defective in that the number of claims in the international application and the number in the translation are different, both the international application and the English translation have 18 claims. Attached as C are copies of the claims from the international application and the English translation as previously submitted. Further explanation from the U.S.P.T.O. as to the "difference" in the number of claims is requested.

With respect to the statement that the translation of the international application is incomplete as a number of pages are missing, the international application contains pages 1-48 while the translation contains pages 1-62. The obvious explanation for the difference in number of pages is

that a translation many times may require more pages in the translation, or in other cases less. In the translation from the Japanese application, the translation of this application required more pages in its literal translation. The Patent Office request for a processing fee for providing the translation later than the appropriate 20 months from the priority date is inappropriate as a certified translation was furnished at the time of filing the application. See Attachment A.

A check in the amount of \$130.00 to cover the required fee of the submission of the executed Oath is enclosed. The Commissioner is authorized to charge any deficiencies or credit any overpayments to Deposit Account No. 19-3140. A duplicate copy of this sheet is enclosed for that purpose.

Respectfully submitted,

 (Reg. No. 32,919)
